

PARC reduces the complexity of designing and building parking structures and offers owners & developers a more efficient (e.g. 8 (8 19%)-Gain- from entitlement to hand over.

As a result, PARC delivers a low-risk, high-quality parking structure with design flexibility at the lowest cost in the shortest amount of time. For owners, this means overall cost reductions of 5%-10%, and structures delivered 30%-50% faster than traditional methods.

- Design - Minimum 5% cost savings
- Building - 30-50% faster delivery
- Construction - 5-10% cost savings
- Operation - 5-10% cost savings
- Maintenance - 5-10% cost savings
- Life Cycle - 5-10% cost savings
- Risk - 5-10% cost savings
- Cost - 5-10% cost savings
- PARC Features - 5-10% cost savings
- 5-10% cost savings
